ADVANCED FURNITURE TESTING

The New Benchmark in Certification

Who is Advanced Furniture Testing?

Advanced Furniture Testing is an accredited independent laboratory which tests commercial and education furniture to specific Australian and international furniture standards.

In its mechanical testing laboratory, Advanced Furniture Testing conducts tests using specialised technical apparatus which simulate real-life use and foreseeable misuse for many types of furniture.

Advanced Furniture Testing is accredited by the National Association of Testing Authorities (NATA). It is authorised to test and certify furniture to 6 Australian standards and 8 international standards and is regularly audited by NATA to ensure a high level of technical competence and integrity.

Certification = Reduced Risk = Peace of Mind

The most technologically advanced furniture testing laboratory in the Southern Hemisphere.

Shape has Australia's largest selection of tested & certified education furniture.

Flexible Furniture For Modern Learning

The modes for future learning highlight different ways in which learning occurs. These spaces need to be flexible and adaptable, and easy to rearrange so the learners can move from an entire group setting, to smaller collaborative groups and individual settings easily.

Understanding Key Learning Styles

Learn on my Own

Independent Learning

Private learning spaces where students can think, reflect and apply their learning.

Students develop creativity and intellectual curiosity.

Based on the 'Cave' Archetype. The furniture in these spaces places emphasis on acoustic and visual privacy to help students focus on independent work.

Learn with Others

Collaborative Learning

Enhanced learning through group work to encourage communication and collaboration.

Students are able to share ideas and develop problem solving and reasoning skills.

Based on the 'Watering Hole' Archetype. The furniture in these spaces is mobile and easily reconfigurable to easily allow movement to different configurations.

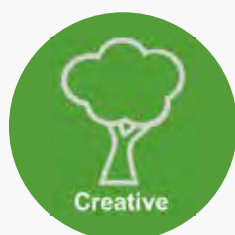

Learn from an Expert

Guided Learning

Focused learning from a presenter whether that is a teacher or peer.

Students develop listening and communication skills.

Based on the 'Campfire' Archetype. These areas are generally furnished with soft seating but a 'campfire' configuration can also be achieved using desks and tables.

Make, Explore and Investigate

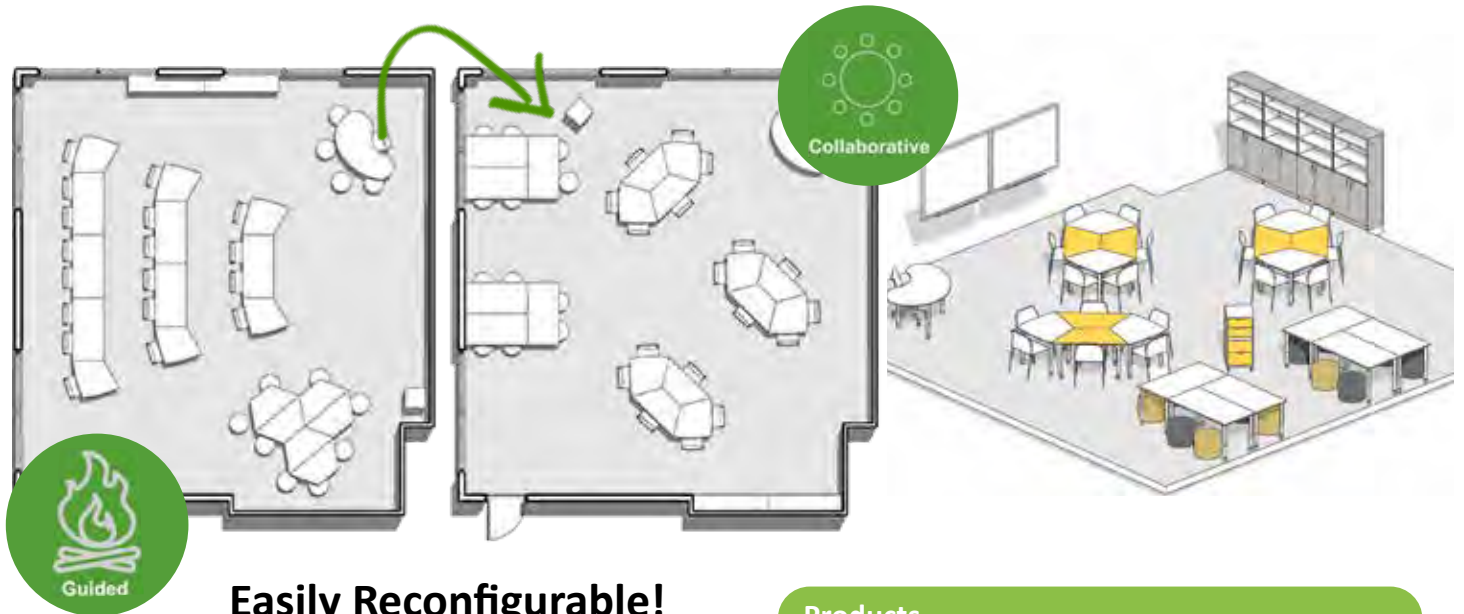

Creative Learning

Allows students to build knowledge and develop skills using creative techniques.

Allows students to develop their own unique learning styles as well as outside the box thinking.

These 'lab style' learning spaces are designed for project based learning.

They encourage critical thinking and collaboration between students and inspire a generation of future innovators .

Creating Inspiring Spaces

Our wide range of education furniture helps shape inspiring environments to teach, learn and innovate. We have worked with thousands of educators to create beautiful spaces for both staff and students.

► Plato Student Chair

7
year
WARRANTY

125
kg
MAX USER

Tested to AS/NZS 4610.2 Education Chairs
180kg Static Load Test
200,000 Seat/Back Fatigue Test

SUMMARY:

Plato is a versatile one piece injection moulded chair which promotes good posture to help reduce fidgeting and to aid in the learner's attention span. Plato is lightweight, durable and is made to withstand school environments.

FEATURES:

Also available in smaller heights 240/260/280mm (minimum quantities may apply)
Core colour range: Slate, Pacific Blue, Leaf Green
Extended colour range available (minimum quantities may apply)

Grade	Seat Height	Code	Suits Desk Ht.

► Plato Chair with Link

• Optional Seatpad

Left side when seated

Right side when seated

- New release (PLCH460L): The ever popular Plato chair (460mm) is now also available with easy linking feature ideal for school halls, assembly areas, canteens etc.
- This model also has the option of an upholstered seat pad (PLCH460LU)

Stacks 10 high

Optimal Height Guide*

Children's stature varies greatly within each classroom. For this reason Shape offer 9 x GROW desk heights and 5 x PLATO chair heights. This enables you the best opportunity to select the ideal furniture for your students.

Stature **1.1m - 1.2m**
Chair Height **300mm**
Desk Height **550mm**

Stature **1.2m - 1.4m**
Chair Height **335mm**
Desk Height **600mm**

Stature **1.3m - 1.6m**
Chair Height **355mm**
Desk Height **650mm**

Stature **1.5m - 1.8m**
Chair Height **400mm**
Desk Height **700mm**

Stature **1.6m - 1.9m**
Chair Height **460mm**
Desk Height **750mm**

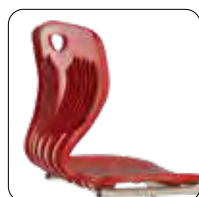

*Important - this is a guide only, based on the Australian Standard. Shape cannot be accountable for incorrect product selections.

► Introducing EDCO Cantilever Chair

► EDCO Cantilever Chair

Modern ergonomically designed cantilever chairs absorb the bounce of active children, so teachers don't have to. The robust seat surface is easy to clean and resists scratches. The C-frame makes raising the chairs on desks and tables quick and safe. Glides provide stability and protect floors from abrasion.

A convenient grip hole in the seatback makes carrying this lightweight chair effortless.

► Comfortable Seating with Flex

Born from the collaborative efforts of architects, interior designers, educators, product designers and furniture manufacturers, Edco chairs are the result of years of research into the movements, habits, uses and misuses of students.

These insights have led to the careful selection of materials, ergonomic design and durable construction that make Edco chairs an ideal student seating solution.

Edco chairs maximise sustainability and minimise maintenance costs with replaceable glides, shells and frames.

► Acer Table Range

Many table settings are not adaptable to changing demands and educators are forced to work around their furniture's limitations.

It was this design flaw which inspired the innovation of our Acer Table Range. Facilitating vast permutations of table configurations in both individual and group-use contexts, our Acer Tables are perfect to liven up and improve the functionality of your space. The range includes fixed, mobile, height-adjustable and flipping frame systems, and modular top shapes that can evolve to include multiple users on demand.

The strength and flexible nature of our frame systems have enabled us to produce highly unique tables, to the extent that if you have a custom table shape in mind, we are confident our frame systems can bring your idea to life!

Check out the quality of our Acer Tables! They're flexible and strong, perfect for sustained use in any interior environment!

**ACER LEG
AVAILABLE
IN SILVER
OR BLACK
RIPPLE**

Push-Pin Height Adjustable

With high-strength 1.6mm gauge steel and a high tensile push-pin system, our legs allow 5 different table height options, without sacrificing product stability or integrity. The Acer leg has a 60mm diameter (far superior to similar products at 40mm) ensuring no movement or rattle.

Mobile Lockable Wheels

Standard with mobile, height adjustable and flipping frames, our mobile castors make reconfiguration a breeze - once you've found the perfect spot, simply lock the castors and you're set!

Optional Glides

Glides can be interchanged with castors. All height adjustable tables are available with four glides or as a combination of two glides and two castors.

Core

Extended

Top Quality Laminates and ABS Edging

Our table tops come standard with quality laminate finishes and high-impact

ABS edging, to ensure that your top withstands your day-to-day activities, with little sign of wear.

Steamroller Mobile Maker Range

STEM | STEAM | MAKER SPACES

Introducing the “Steamroller” Mobile Maker Table specifically designed by Shape to cater for STEM and STEAM based learning. Our unique tables come in a wide range of options

- Unique writable whiteboard surface
- 1800 x 1200mm top
- Choice of lockable castors or glides
- Fixed or adjustable height to suit all ages
- Handy combined tote storage

No longer do you need to have separate storage, simply select the table with the Storewell Storage.

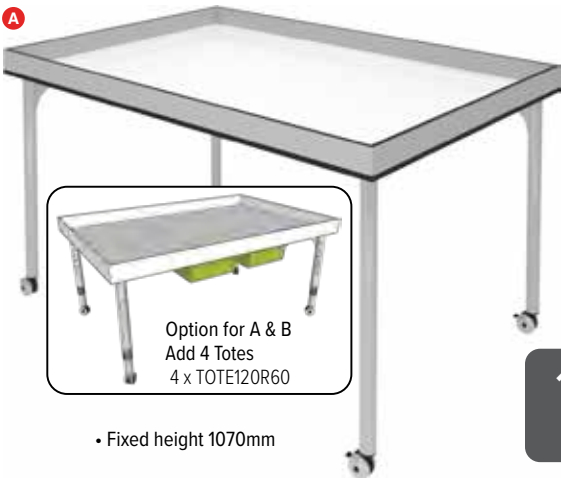

“Steamroller” tables come with a whiteboard top and 80mm raised edge creating a contained work area.

If you are looking for a Maker, Stem or Steam centre for robotics, Lego, collaborative or group work, the “Steamroller” Table is for you.

► PODZ Ottomans

Does your space require furniture that can endure use by large volumes of people, and stand the test of time? Do you want something new and funky to inspire learning, whilst complying with OH&S standards? We've got you covered!

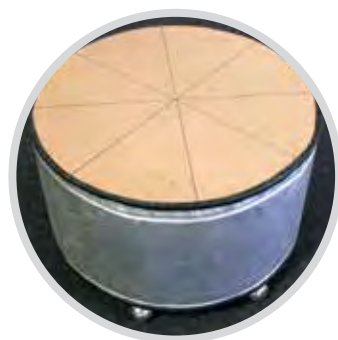

Usually it's hard to find affordable innovative furniture with commercial-grade construction, but it just so happens that all of our Modular Furniture Range answers to the requirements for high-demand work spaces - **in fact we believe we have the strongest modular ottomans available on the market.** Innovation and quality, we feel, is the most important criteria a furniture item should aspire to. And this is reflected in our products, whereby all of our Modular Furniture Range has been over-engineered to ensure customer comfort and satisfaction.

So just how good is our product quality? Well, just have a look at what goes on inside one of our Round Ottomans!

Heavy-duty MDF Internals

The internal construction of our ottomans consists of heavy-duty "E0" MDF panels to eliminate any chances of structural failure, for assured safety during use.

Smooth Finish

The "E0" MDF internal is reinforced around the sides, promoting a smooth consistent finish that is hard to damage.

High-grade Vinyl & Foam

All internals are encapsulated within a foam sleeve covering both the seat surface and sides. This is then complemented by vibrant commercial vinyl with reinforced double stitching.

Chrome Ball Castors

Finally, all of our Modular Ottoman products come standard with our state-of-the-art chrome castors, answering to OH&S requirements for easy relocation, whilst delivering on looks.

► Sunrise Lounge System

Express your creativity

Customise your Sunrise space to reflect your imagination. The creative options are endless.

Free and flowing

The open, unrestricted design of Sunrise allows you to relax in optimum comfort.

Firm comfort

With large seats and back cushions, timber legs and a steel frame, Sunrise is both comfortable and durable.

Linear – extend at will

The modules allow you to design the ideal lounge configuration to suit your requirements.

The beauty is in the detail

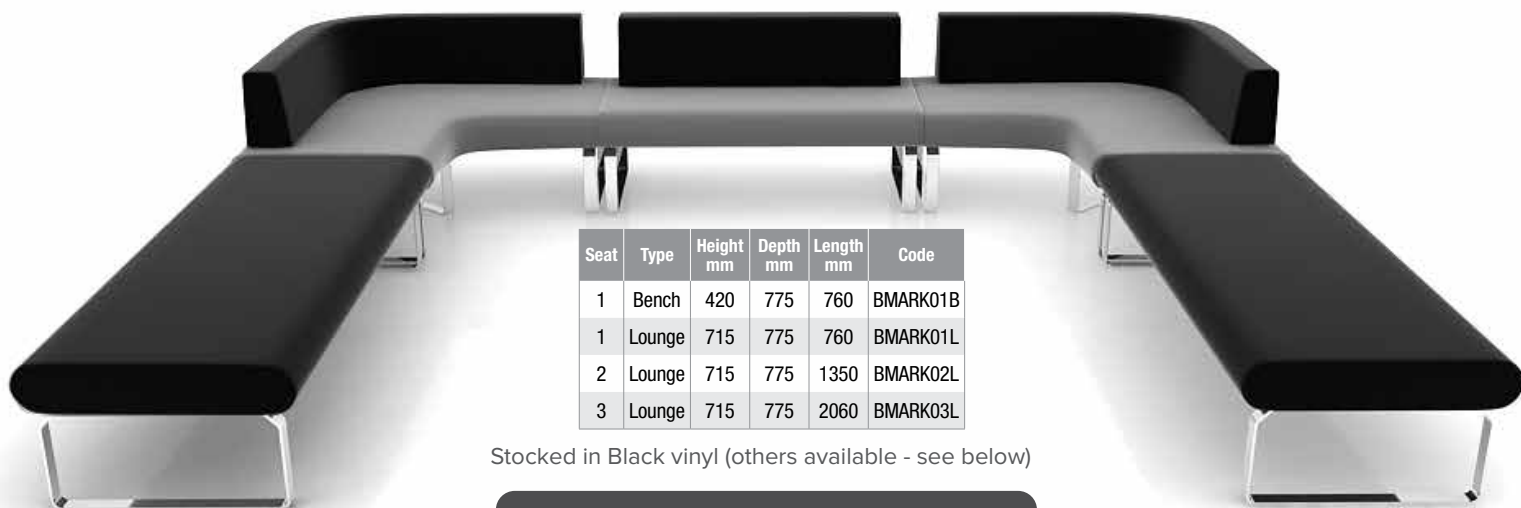

The unique Sunrise thread decoration brings spirit to the whole design.

The insertable and moveable shared armrest enables arm support wherever you sit.

Topped off with timber legs and a coffee table, the Sunrise style exudes quality.
